## FEATURES

French door design allows for two independently controlled  
temperatures zones and will store up to 42 bottles of wine,  
21 bottles in each zone

Precise digital thermostat with LED display can be set  
and monitored through the door

Select a temperature between 5°C – 18°C (41°F – 64°F) and the  
frost free fan forced cooling maintains and even internal temperature  
throughout the zone

Prowave liner allows the storage of larger diameter bottles of wine  
at the bottom

Our Proglide shelving system features 1.5" stainless steel ball bear-  
ing glides for full extension and easy access

Anti-vibration technology is integrated into the shelf minimizing the  
transfer of vibration to the bottles

Energy efficient white LED interior display lights illuminate the interior

Smudge resistant stainless steel door and pro handle with matching  
shelf trim

Zero-clearance hinge system allows for a flush fit against cabinets
